Overseas Qualifications Assessment

Overseas Qualifications Assessment

The Tasmanian Qualifications Authority (TQA) provides assessment and advice to permanent residents or Australian citizens who have formal qualifications gained overseas.

Overseas higher education and technical qualifications are assessed using the Australian Education International-National Office of Overseas Skills and Recognition's *Country Education Profiles*.

You will receive an educational assessment advice statement that describes/compares your qualification to the educational level of an Australian qualification on the Australian Qualifications Framework.

The TQA provides an equivalence statement for Senior Secondary students (Years 11 & 12) for recognition on the Tasmanian Certificate of Education.

How the TQA Helps You

The TQA liaises with professional associations to ensure we give you the most current information on membership requirements and processes.

The TQA can refer you to appropriate occupational or licensing associations.

If your qualifications have not been translated, we can give you a list of translation services.

We will organise professional interpreters to help you during the interview if required.

An Educational Assessment Can Help You

- with entry to post-secondary education
- explain your educational level to an employer for general employment purposes
- gain membership of a professional association
- obtain a licence for regulatory purposes.

If You Want Your Overseas Qualifications Assessed

Make an appointment

- by phone
- in person.

You Will Need

The original and the English translation of your

- qualification/award
- transcript of academic record
- evidence of your Australian residence status
- evidence of change of name (eg marriage certificate).

Your documents may be original or certified copies.
