ASSESSMENT

Criterion-based assessment is a form of outcomes assessment that identifies the extent of learner achievement at an appropriate end-point of study. Although assessment – as part of the learning program – is continuous, much of it is formative, and is done to help learners identify what they need to do to attain the maximum benefit from their study of the course. Therefore, assessment for summative reporting to the TQA will focus on what both teacher and learner understand to reflect end-point achievement.

The standard of achievement each learner attains on each criterion is recorded as a rating of 'C' (satisfactory standard) according to the outcomes specified in the standards section of the course document.

A ‘t’ notation must be used where a learner demonstrates any achievement against a criterion less than the standard specified for the ‘C’ rating. The ‘t’ notation is not described in course standards.

A ‘z’ notation is to be used where a learner provides no evidence of achievement at all.

Providers offering this course must participate in the quality assurance processes.

Internal assessment of all criteria will be made by the provider. Assessment processes must gather evidence that clearly shows the match between individual learner performance, the standards of the course and the learner’s award. Providers will report the learner’s rating for each criterion to the Tasmanian Qualifications Authority.

QUALITY ASSURANCE PROCESSES

The following process will be facilitated by the TQA to ensure there is:

- a match between the standards of achievement specified in the course and the skills and knowledge demonstrated by learners
- community confidence in the integrity and meaning of the qualification.

Process – The TQA will verify that the provider’s course delivery and assessment standards meet the course requirements and community expectations for fairness, integrity and validity of qualifications the Authority issues. This will involve checking:

- learner attendance records; and
- course delivery plans (the sequence of course delivery/tasks and when assessments take place):
  - assessment instruments and rubrics (the ‘rules’ or marking guide used to judge achievement)
  - class records of assessment
  - examples of learner work that demonstrate the use of the marking guide
  - samples of current learners’ work, including that related to any work requirements articulated in the course document.

This process may also include interviews with past and present learners.

It will be scheduled by the TQA using a risk-based approach.

CRITERIA

The assessment for the Practical English TQA Level 1, will be based on whether a learner can:

1. Read, understand content, and gain information from simple text
2. Draft and write simple text for an audience and a purpose
3. Speak clearly and engage in conversations and discussions with individuals and small groups.
